REMARKS

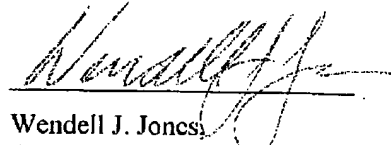

The Examiner has required restriction/election to one of the following species:

- I. Claims 1-8 drawn to a static memory system relying upon electron emitters, classified in class 365, subclass 118;
- II. Claims 9-12, drawn to a dynamic memory storage system, classified in class 369, subclass 126;
- III. Claims 13-23, drawn to a static atomic memory storage system, classified in class 365, subclass 151.

Applicants herein select species III, claims 13-23 drawn to a static atomic memory storage system. Applicants herein responsively restrict examination to the invention of claims 13-23 for prosecution on the merits, without traverse. Applicants have herein also canceled claims 1-12 without prejudice or disclaimer.

Applicants respectfully suggest that each of the claims presently in the application are distinct over the prior art and that the application is now in condition for allowance. Accordingly, Applicants request that the restriction/election requirement be withdrawn and the claims be allowed.

Respectfully submitted

Wendell J. Jones,
Attorney for Applicants
Reg. No. 45,961
